Dear Sir:-

Pardon me for not acknowledging your registered letter before.

The piece is Byzantine of John II. I handed it over the other day, to one of our officers, who is especially interested in Byzantine Coins, and asked him to make an offer for it if he wanted it.

He is looking it up, to see if he has it, and I expect it any time, and will communicate with you later.

Very truly yours,

Dear Sir:-

Pardon the delay in returning the coin you sent, sooner, but I wanted first, to see if any of our members desired to buy it. None of them did as the coin is too poor for the collector who is interested in this series. The name of the ruler being effaced

It is a coin of John II.Comnenus 1118 to 1143, one of the Byzantine Emperor It was made at a Constantanople Mint. I doubt if the piece is worth more than $.50 or $ 1.00-

I remain,

Very truly yours,

Springfield, Mass.

Mr. Howland Wood,

Dear Sir

I took the enclosed foreign coin to Mr. Wm. C. Stone of our City to ascertain it value. It is the property of a lady who has been a nurse in a hospital. The coin was given her by a Chinese patient on his recovery as he was about leaving for his native land. She has held it a number of years, and prized it highly, but feels the need of the money it might bring. Mr. Stone advised me to send it to you. That you could tell me its value and history, and to mention his name. So I send it by

Registered mail, and enclose
Stamps for its return.
Thanking you in advance
for your trouble I am
Sincerely Yours.
